## Great East African Migration

*Tanzania & Kenya*

Seeing the wildebeest migration in East Africa is one of the most spectacular wildlife sightings in the world. Almost 2 million animals roam the plains of East Africa, but it can be surprisingly hard to find them in the vast area that they cover, as their movements are governed by the rains and predicting their location can be a gamble. We designed this itinerary to include all the areas frequented by the migration on their annual route, which virtually guarantees that you will see them! Enjoy 15 game viewing safaris
